ENVIRONMENTAL SUSTAINABILITY

The BOX Seat's unique geometry and compact rotation system supports reduced raw material usage. The design structure promotes deconstruction and component replaceability. All materials are recyclable promoting conservation and environmental awareness. The BOX Seat is subject to multiple International Patent & Design Registrations.

The BOX Seat 901 Padded model is an economical 'tip-up' stadium seat offering the comfort of a padded seat and backrest.
It utilises the same rail system as all of The BOX Seat models, making it easy to upgrade your stadium in the future.

With the option to have upholstered padding on either the seat alone, or the seat and the backrest, the 901 Padded model offers great versatility to suit your specific needs.
