ENVIRONMENTAL SUSTAINABILITY

The BOX Seat's unique geometry and compact rotation system supports reduced raw material usage. The design structure promotes deconstruction and component replaceability. All materials are recyclable promoting conservation and environmental awareness. The BOX Seat is subject to multiple International Patent & Design Registrations.

The BOX Seat 908 model is a highly durable, fully padded seat. It has gained the reputation of being "the most comfortable stadium seat" on the market.

The 908 model was used for the Arsenal FC 'Emirates Stadium' in London; the first fully padded football stadium in the world.

For a visually-appealing quality finish, consider colour-coding all the components to match the venue style. All BOX Seat models can be colour coordinated.

Highly durable recessed upholstery, in a selection of commercial grade leatherette fabrics.

Multiple accessories form cup holders to rail mounted function tables are available.

The BOX Seat 908 model incorporates a padded seat and backrest insert. The insert pads uniquely maintain the correct ergonomic profile, providing superior seated comfort.

This is not an 'add-on' cushion which compromises a seat's lumbar support and comfort, this is a 'world first' in venue seating cushioning systems. The BOX Seat integrates the cushion into the seat and backrest cavity, retaining its ergonomic precision and taking spectator comfort to an entirely new level.

The BOX Seat 908 model comes with:

- *Upholstered mid-height backrest.*
- *Exclusive maintenance-free quality upholstery.*
- *All components are moulded using recognised quality polymers.*
- *All materials are UV & FR rated as required.*
- *Strength and Durability tested.*
- *TBS rail available in Galvanised or Powdercoated finish.*
- *Riser mount & Tread mount options.*
- *Soft action 'tip-up' mechanism.*
- *Optional Padded Armrest & Cupholder Accessories.*
